

Bootstrap Dev Log

EXAMPLE

04/11/2022,

3pm - 4pm, Brainstorming and Outlining my web-page design

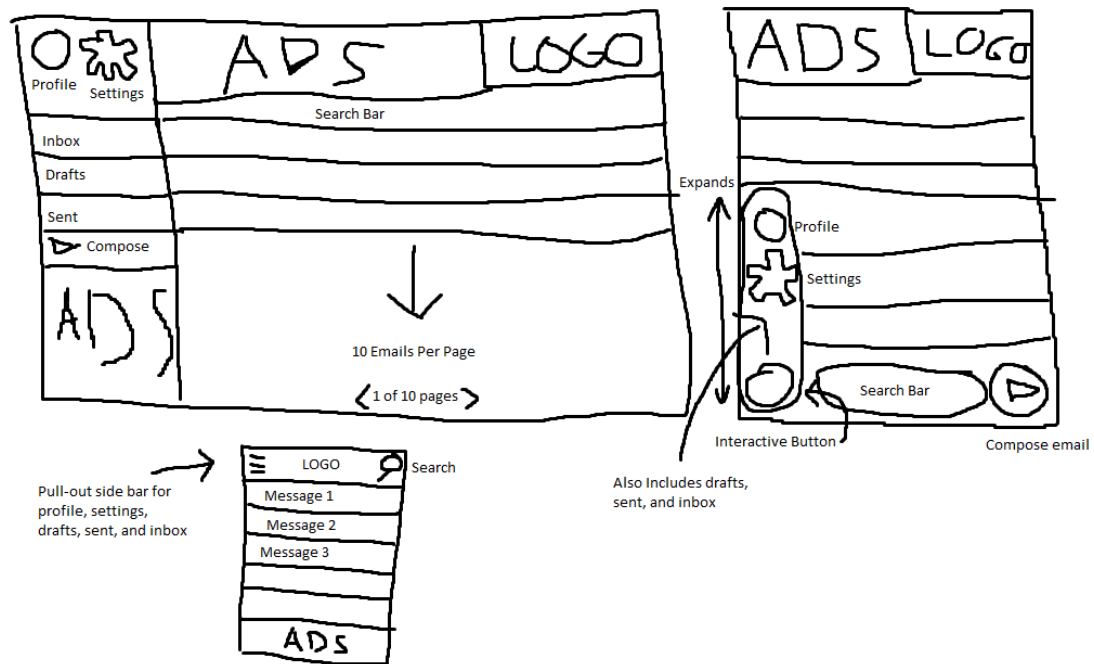

- Created 7 sketches of the page
- Outlined the design of the responsiveness of the page for mobile and desktop
- Created wire-frames of the layout and separated the layout into different sections

04/12/2022, 5PM - 6PM, Created my first draft files and worked on the first draft of the webpage template

07/19/2024, 8PM, Created Dev Log

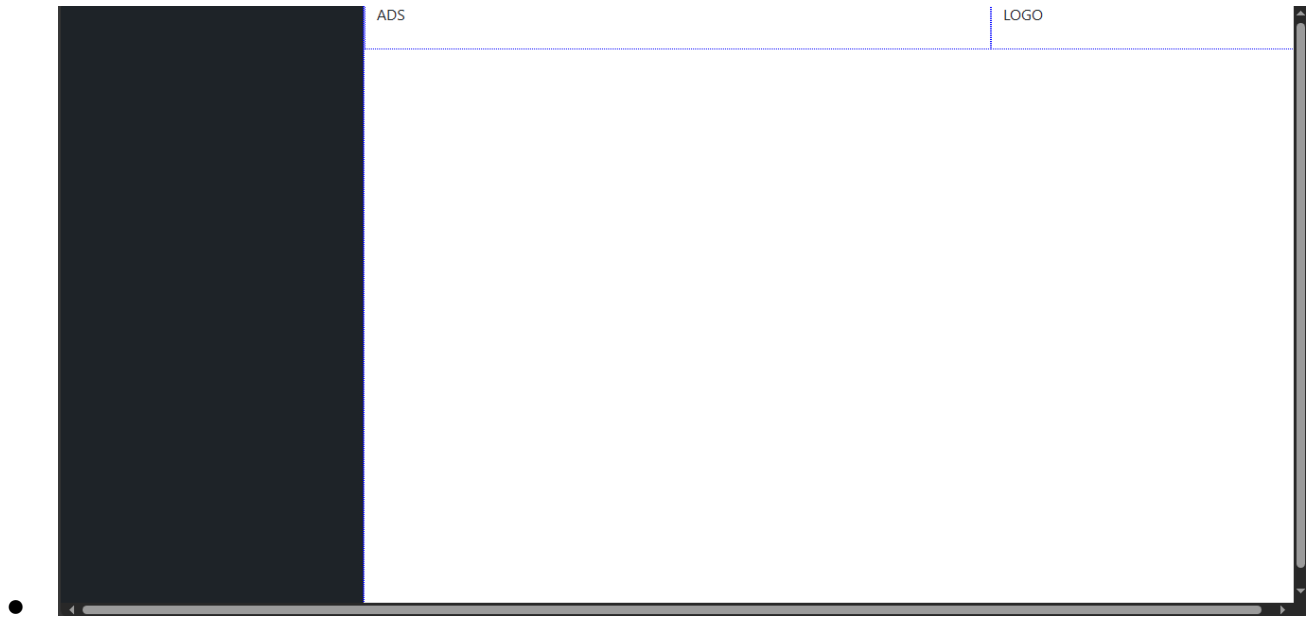

07/31/2024

- 3pm-4pm, Brainstormed and Outlined web-page design; created wireframe
- Wireframe here

8/6/24

- 3-4:45pm, Started work on the first draft, formatting framework

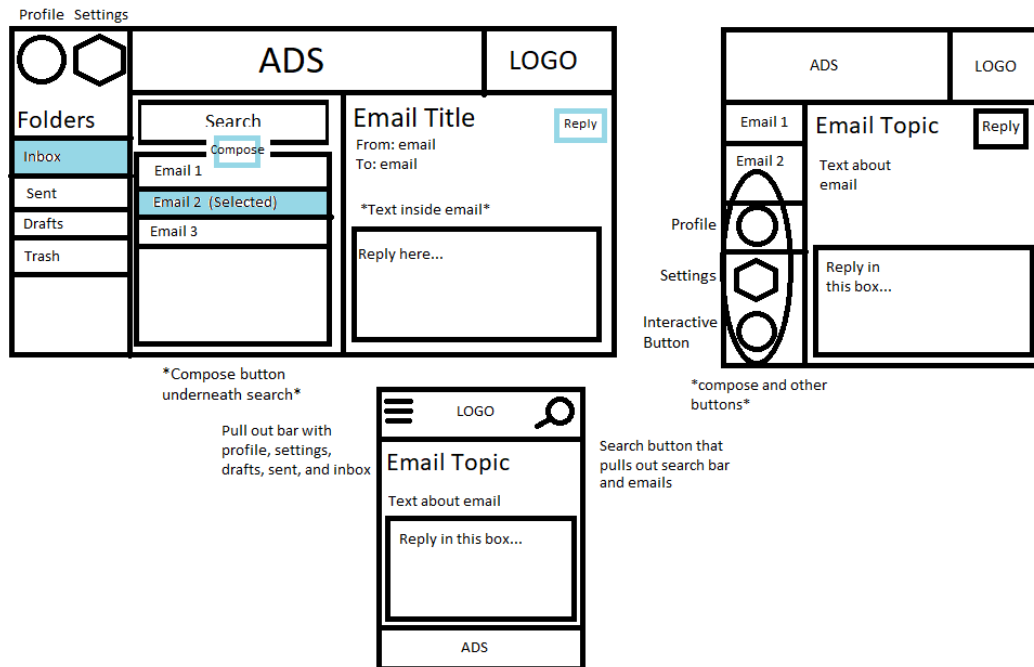

- 6-7, continued work on draft, recreating wireframe as I initially made only sketches and need to make a more defined model
- Added buttons for inbox, sent, drafts, etc
- Added “advertisement” space and email list

8/9/24

- 3-4pm, added more requirements to my first draft, such as search bar and reply text area

8/10/24

- Completed updated wireframe

•

8/11/24

- 5pm-6pm Email Text area implemented and large screen size mostly completed

8/12/24

- 5pm-6pm Started work on medium size screen, brainstormed how to implement expanding button

8/13/24

- 5pm-6pm Figured out how to hide columns depending on screen size
- Started work on the expandable button using transitions
- 6-7pm Figured out how to resize columns using breakpoints and reformatted the large screen size to accommodate medium size

8/14/24

- 5-6pm Began adding circular buttons in side the expanding button for profile, settings, etc

8/15/24

- 5-6pm Changed plan on expanding button and started looking into bootstrap options
- Started work on drop up menu using bootstrap documentation
- Created github and pushed files

8/16/24

- 6-7pm Added an animation to the dropup button and finalized medium screen size

8/17/24

- 3-6pm Completed most implementation for the small window size, moving the ads section and created a sandwich collapsible button to put list of emails
- Decided to make button expand downward instead of from the left

8/18/24

- 6-7pm Completed all requirements for the project, including 3 columns, all the necessary buttons and text boxes, and bootstrap grids

8/19/24

- 5-7:20pm Added final details to website such as removing filler text, changing colors and styling
- Code is also commented on for easier viewing
